Centros de Finalização e Renovação

As entregas de aeronaves executivas de turbo aumentaram 7.2 por cento no primeiro trimestre deste ano em comparação ao mesmo período de 2014, de acordo com a Associação dos fabricantes para a Aviação Geral dos EUA. O salto nas entregas provavelmente significa um impulso aos negócios a centros de finalização e renovação e a empresas que fornecem componentes de interiores. Com clientes pedindo mais e mais luxo, conforto, tecnologia e comodidades dedicadas aos espaços de trabalho–centros de finalização estão personalizando interiores com componentes que apenas alguns anos atrás pareciam inimagináveis. Projetos recentes incluíram um casino, completo com bar molhado e mesas de jogos; uma lareira simulada num Boeing 787 e um interior de fibra de carbono num Challenger 850 com amadeiramento folheado em ebano, assentos estofados com couro branco e divãs em tecidos atraentes e contrastantes.

Quer você esteja procurando sua própria lareira à bordo ou apenas um local confortável para conectar seu notebook, os estabelecimentos de finalização e renovação listados aqui certamente podem entregá-lo.

–Jane Campbell

Global deliveries of turbine business airplanes increased 7.2 percent in this year’s first quarter over the first quarter of 2013, according to the General Aviation Manufacturers Association. The jump in deliveries will most likely mean a boost to business at centers that perform aircraft completion and companies that provide interior components.

With customers wanting more and more luxury, comfort, technology, dedicated work space and amenities, completion centers are customizing interiors with components that only a few years ago would have seemed unimaginable. Recent projects have included a casino, complete with wet bar and gaming tables; a simulated fireplace in a Boeing 787; and a carbon fiber interior in a Challenger 850 with ebony hardwood veneer accents, white leather upholstered seats and divans in eye-catching, contrasting fabrics.

Whether you’re looking for your own airborne fireplace or just a comfortable place to fire up your laptop, the completion and refurbishment facilities listed here can deliver.
