Cessna Citation CJ2+ Alpine Edition

The Cessna Citation CJ2+ Alpine Edition is a retrofit option for the CJ2+ that includes a number of avionics upgrades, interior changes, and performance enhancements. The retrofit is available for both new and pre-owned CJ2+ aircraft.

**Avionics Upgrades**

The Cessna CJ2+ Alpine Edition retrofit includes the G3000 avionics suite, which features a touchscreen cockpit display and integrated avionics. The G3000 suite replaces the traditional G1000 and is designed to provide a more intuitive and user-friendly interface. The G3000 includes a primary flight display (PFD), multi-function display (MFD), and engine display (ED). The PFD displays airspeed, altitude, attitude, and a map, while the MFD displays engine and system data, and the EICAS displays engine parameters.

**Interior Changes**

The Alpine Edition includes a number of interior changes, including new seating, interior lighting, and additional storage options. The interior is designed to provide a more comfortable and luxurious environment for pilots and passengers.

**Performance Enhancements**

The Alpine Edition includes performance enhancements, such as improved fuel efficiency and increased range. The aircraft has a max cruise speed of 418 ktas and a range of 1,613 nm at 357 ktas.

**Specifications**

- **Max takeoff weight:** 12,500 lbs
- **Engines:** (2) Williams International FJ44-3A-24, 2,490 lbs
- **Fuel capacity:** 3,961 lbs
- **Height:** 4.75 ft
- **Width:** 4.8 ft
- **Volume:** 246 cu ft
- **Landing distance:** 2,980 ft
